

Lexa

The Determined Influencer

Backstory

Lexa is a 25-year old heterosexual female. She is a PHD graduate student and academic researcher (studying Kinesiology and Physical Education) at the university in Middleburg. Her research focuses on mental factors, such as mental fortitude and resilience, stress, and meditation. She has a middle-class background; her parents divorced when she was a teenager.

Personality Traits

Lexa is smart and competent; she is at the top of her game, and she knows it. She is self-confident and determined. She takes on the world with an “outwit-outplay-outlast” perspective. She is sensual and playful. However, she can be overly self-reliant, and her playfulness often crosses over to being mischievous, sometimes with a dark side.

Development

As the story progresses, Lexa is annoyed by the obstacles in their way, but ultimately sees problems as opportunities. She is able to slyly influence other’s actions in the direction she chooses, confidently using seduction when it suits the situation. She is influenced in the moment by her interpersonal feelings, such as her rivalry with Emily. As her feelings for Cameron emerge, she experiences internal conflict -- she wants to retain her self-reliance, and yet the feelings are strong. In the end, she is able to see the value of others contributing to her own growth, and is able to value a loving relationship with Cameron.
